

PROSTATE CANCER

Certificate of Advanced Studies

POSTGRADUATE PROGRAMME

Overview

Post-graduate programme focused on the improvement of both the clinical and scientific capability of oncologists and aiming to ensure better-quality management of patients with prostate cancer.

Duration: 15 months

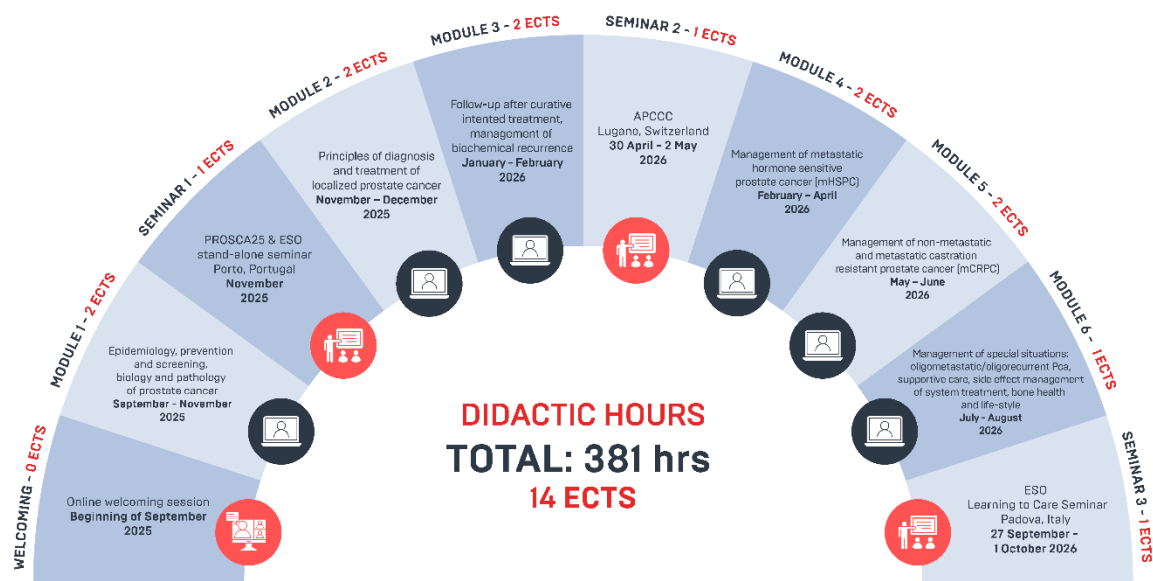

Credits assigned: 14 ECTS

Structure: 6 online modules + 3 in person seminars

Collaborating university: Università della Svizzera italiana (USI), Switzerland

CURRICULUM OVERVIEW CERTIFICATE OF ADVANCED STUDIES IN PROSTATE CANCER

To obtain the Certificate of Advanced Studies in Prostate Cancer, it will be compulsory that participants will attend all seminars and modules according to the provided time-line.

For further information please contact: Sarah Ortelli, sortelli@eso.net

Admission

Admission to the Certificate of Advanced Studies in Prostate cancer (CAS-Pr) programme will be by competitive application only and the selection will be based on the eligibility criteria and on the selection procedure.

Applications will be considered if received completed with all required documents and within the deadline. Attendance is limited to 25 participants. Decisions on admissions are made by the appointed Programme Chair.

Attendance

Eligibility

The programme is designed for oncologists (medical oncology, haematology, internal medicine, radiation oncology, pathology), but it is equally accessible to graduates in natural sciences, who are engaged in the field of oncology, especially in the field of prostate cancers.

- Medical doctors:
 - Master degree from an accredited college or university (e.g. state examination in medicine) in medicine or an equivalent degree at the level of state examination in medicine and have had at least two years residency training in a relevant institution.
- Natural scientists:
 - Master degree from an accredited college or university in a course of studies in natural sciences or an equivalent degree at the level of at least three years of studies or in a course of studies with essentially the same contents at an accredited college or university and at least two years of professional experience in oncology.
- The following additional achievements will increase the assessment rate of the application:
 - Further professional experience related to the course of studies.
 - Completion of an additional qualification in oncology.
 - Publications, as evidenced by cumulative impact factors greater than 10.
 - At least one year of relevant oncological experience in a foreign country.

Tuition Fee

In keeping with the ESO mission, the cost of the CAS-Pr programme is generously subsidized by the European School of Oncology (ESO).

In keeping with the mission of the European School of Oncology, ESO generously subsidizes the cost of the CCB programme. The tuition fee which remains to be paid by each participant is EUR 4'900. A CAS Financial Aid Fund will be available for participants who cannot cover the full fee directly. The tuition fee includes:

- Access to the modules via a dedicated online platform
- Access to the three in-person seminars foreseen by the programme, including registration for the indicated congresses and accommodation
- Access to all exams required by the programme

The tuition fee does not include: travel to the in-person seminars.
